T: 028 8224 2348 F: 028 8224 1454

ACCREDITATION AND ORGANISATIONS

Campsie NIE Depot

CLIENT	Northern Ireland Electricity
DESIGN ENGINEER	Northern Ireland Electricity
CONTRACT VALUE	£37,000
CONTRACT PERIOD	6 Weeks

DETAILS

Access for the public to Northern Ireland Electricity's Campsie Depot was originally through the storage yard to the rear of the building, which proved both dangerous to the public and to their own operatives. W&H Alexander (Civil Engineering) Ltd were awarded the contract to open accesses from the front storage yard through and to carry out repair work to an existing concrete storage yard

HEALTH AND SAFETY CONSIDERATIONS

All of the work was carried out in live working and public areas. Careful traffic and pedestrian management had to be put in place to allow safe access and egress for both NIE operatives and the public. A new vehicular entrance was created at the front of the main building which involved excavation in and around an existing fibre optic cable so investigation by hand digging was implemented and safe digging practices followed at all times.
