ACCREDITATION AND ORGANISATIONS

AGHUOULE SUBSTATION

CLIENT	Northern Ireland Electricity
DESIGN ENGINEER	Mulholland & Doherty
CONTRACT VALUE	£34,000
CONTRACT PERIOD	Jan 2008- Feb 2008

DETAILS

These works were part of the work to the Enniskillen to Derrylin overhead line scheme on which we were also involved. The Aghuoule substation is located behind Quinn's glass factory, Derrylin.

A 110KV terminal tower was constructed within the substation including 4No 250mm sq precast piles. A template had to be made up and cast into the base to set the stub legs for the tower.

HEALTH AND SAFETY CONSIDERATIONS

The substation was not energised during construction so the typical NIE procedures did not apply.
