BALLYMONEY WEST

ACCREDITATION AND ORGANISATIONS

CLIENT	Northern Ireland Electricity
DESIGN ENGINEER	Faber Maunsell
CONTRACT VALUE	£30,000
CONTRACT PERIOD	Sept 2008- Nov 2008

DETAILS

This was an extension to the existing Ballymoney West substation. To distribute extra capacity generated by a new nearby wind farm development the substation was extended to include addition circuit breakers and kiosks.

The substation hardstand was extended along with the palisade and chain-link fences before the concrete bases were constructed to complete. NIE also had to remove and reposition overhead powerline poles to accommodate this work
