ACCREDITATION AND ORGANISATIONS

COLERAINE WEST

CLIENT	Northern Ireland Electricity
DESIGN ENGINEER	Mulholland & Doherty
CONTRACT VALUE	£65,000
CONTRACT PERIOD	April 2007- July 2007

DETAILS

A new control building was completed to Coleraine substation as part of our NIE framework contract. Existing palisade fence repositioned to ensure work outside live substation.

A reinforced concrete basement level was constructed with precast slabs supported on structural steelwork. 415mm cavity walls were constructed with brick outer leaf and facing block inner leaf. Precast roof slabs were placed and then a trussed roof constructed with tiled finish. The palisade fence was reinstated to complete works.
