ACCREDITATION AND ORGANISATIONS

NIE FRAMEWORK

CLIENT	Northern Ireland Electricity
DESIGN ENGINEER	NIE Networks
CONTRACT VALUE	£1,000,000/ year (average)
CONTRACT PERIOD	1999- Present

DETAILS

W&H Alexander have a measured term contract with NIE that covers all civil works to Greenfield and Brownfield sites in addition to live substation works. This contract has been in place since 1999 and a very good relationship has been established. Job values range greatly from small jobs within live substations to full substation builds of up to £250k.

Generally the bulk of the work completed involves the construction of new control buildings; Various RC structures including transformer bases, pylon tower bases and equipment support bases; cable ducting; drainage systems; road works; fencing and refurbishments.

HEALTH AND SAFETY CONSIDERATIONS

During our contractual relationship, W&H Alexander have continually improved their health and safety measures to meet the requirements of the client. We have worked closely with NIE to ensure that all our site staff are NIE trained and authorised to work within live substations and other NIE projects. Supervisors receive additional training to accept Limited Works Certificates from NIE and to take plant into live substation.
